	Examiner Richard Ridley	Art Unit 3651	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 38 objected to because of the following informalities:

- There are two claims numbered 38.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 33-36, 37, 38, 40 rejected under 35 U.S.C. 102(b) as being anticipated by Katoch USP 6135705.

Katoch discloses a similar device comprising a(n):

- Set of recycling stacker shelves (36-38) that retract (fig. 2)
- Conveyor (13)
- Wherein the conveyor's depositing end track the motion of the set of recycling shelves (C3/L6-12 & 62-65)
- Stack unloader (the stacks and removed and loader into case; C1/L45+)
- Overflow mechanism (speeds of the device are controlled accordingly to relieve overflow; i.e., the device can be appropriately slowed down and sped up; C3/L55)

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 39 is rejected under 35 U.S.C. 103(a) as being unpatentable over Katoch in view of Dimion USP 5964570.

Katoch discloses all of the claim limitations but does not explicitly disclose a jam clearance mechanism.

Dimion, in his stacking device, broadly teaches the use of a jam clearance mechanism for the purpose of providing for a means to clear jams (C7/L30-31+).

It would have been obvious to one having ordinary skill in the art at the time of the invention to have employed the use of a jam clearance mechanism, as taught by Dimion, in the device of Katoch for the purpose of providing for a means to clear jams.

Allowable Subject Matter

5. Claims 1-27, 31, 32 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
